

PIONEERING A GREATER TOMORROW FOR THE YOUTH FOUNDATION (PGTY FOUNDATION)

Grassroots Implementation Partner Profile

Helping development partners turn programmes, resources and ideas into practical community-level impact in Nigeria.

OUR PARTNERSHIP PROPOSITION

When your organization needs a trusted local partner to reach communities in Nigeria, PGTY Foundation can support community entry, beneficiary engagement, practical training, field implementation, stakeholder coordination and impact documentation.

WHO WE ARE

Pioneering a Greater Tomorrow for the Youth Foundation (PGTY Foundation) is a Nigerian youth- and community-focused organization working to create practical pathways to skills, livelihoods and sustainable development. Our work places particular emphasis on renewable energy, green skills, women and youth empowerment, technology, electric mobility and community-based capacity building.

PGTY Foundation is positioned to work alongside development organizations, foundations, government institutions, corporates and other partners that need local capacity to connect programmes with people and communities.

WHAT WE CAN HELP PARTNERS DELIVER

Community Mobilization

Community entry, stakeholder engagement, beneficiary mobilization and local coordination.

Skills & Training

Practical renewable-energy & Others, Solar, Electrical, Technology and Green-Skills Training.

Women & Youth

Inclusive engagement, employability pathways, entrepreneurship and hands-on capacity building.

Field Implementation

On-the-ground delivery of workshops, demonstrations, community activities and pilot interventions.

E-Mobility

EV/e-mobility awareness, technical skills, maintenance, repair and conversion-oriented training.

Documentation

Attendance, activity records, photographs, beneficiary stories and implementation reporting support.

OUR CORE PROGRAMME AREAS

Renewable-energy and solar skills development • Youth employability, entrepreneurship and green jobs • Women's participation in clean energy and electric mobility • Community-based technology and capacity building • Electric mobility / EV technical skills and awareness • Practical training & Others, demonstrations and grassroots outreach

HOW WE WORK WITH PARTNERS

PGTY can be engaged as a local implementation, training or community-delivery partner depending on the needs of the programme. We can support a project from community identification and mobilisation through implementation and post-activity documentation.

01	Understand the Programme Align with the partner's objectives, target beneficiaries, locations, activities and expected results.
02	Identify & Engage Communities Support local stakeholder engagement, beneficiary mobilisation and community-level coordination.
03	Deliver Activities Facilitate practical training, workshops, demonstrations, outreach or other agreed field activities.
04	Document & Report Capture participation, activities, outputs, stories and field evidence for partner reporting.

WHO WE ARE LOOKING TO PARTNER WITH

International NGOs & Development Agencies	Foundations & Philanthropic Organisations
Energy & Clean-Tech Companies	Corporate CSR / ESG Programmes
Government Agencies & Development Institutions	Youth & Women-focused Organisations
Climate & Environmental Organisations	Technology & E-Mobility Organisations

WHAT PARTNERS CAN EXPECT FROM PGTY

- **Local connection:** community-level engagement and contextual understanding.
- **Practical delivery:** hands-on training and implementation rather than theory alone.
- **Inclusive participation:** deliberate opportunities for youth and women to participate.
- **Technical orientation:** renewable energy, electrical systems, technology and e-mobility capabilities.
- **Evidence of activity:** structured documentation to support partner reporting and learning.
- **Flexible collaboration:** PGTY can participate as a training partner, field implementation partner, community partner or technical support partner.

EXAMPLE COLLABORATION OPPORTUNITIES

- A development organization needs to deliver renewable-energy skills training to young people in Nigerian communities.
- A foundation wants to implement a women-focused clean-energy or e-mobility programme.
- An energy company wants to reach underserved communities through a CSR/ESG intervention.
- An international organization needs local support for beneficiary mobilisation, workshops, demonstrations or field activities.
- A technology or mobility organization wants a local partner for skills development and community awareness.

LET'S REACH MORE COMMUNITIES TOGETHER

PGTY Foundation welcomes conversations with organizations seeking a reliable Nigerian grassroots partner for community development, practical skills, renewable energy, women/youth empowerment and e-mobility initiatives.
